You are invited to attend the following presentation hosted by the League of Women Voters of Portland.

Can Government Entities Work Together? Problem Solving in the 21st Century

Tuesday, October 9, 2012, 7:00 pm
Multnomah County Building Board Room
501 SE Hawthorne Boulevard

Speakers:

Phillip J. Cooper, Professor of Public Administration in the Hatfield School of Government at Portland State University

Erin Ryan, Associate Professor of Law at the Northwestern School of Law of Lewis and Clark College

Rich Muza, Remedial Project Manager, Superfund Program, U.S. Environmental Protection Agency (EPA)

Learn and discuss with speakers:

- How and why has the Government role in people's lives grown?
- How do Government entities work together?
- What issues affect the success or failure of Governments working together?
- What is the future of Government and problem solving in the 21st Century?

This meeting is free and open to the public.

Hi Rich - this is a good presentation. It seems to be clear for the audience to understand and follow along. Minor suggestions:

1. The slide background is a bit dark. See the attached slide as a potential option.
2. Slide #3 introduce the slide with a general overview so audience doesn't lose focus. See comment below.

slide example.pptx photo.JPG

3. With the PH and BBM example, include a discussion using the 2nd and 3rd bullets below. May want to mention roles of the various agencies/tribes in the process. Also may want to mention how EPA works with other agencies that are not involved with the clean-up, but who may be impacted or could impact the site. (for BBM may want to mention the EPA study to determine if ACE release of water from CGL may contribute to elevated Hg levels. For PH may want to mention how EPA may work with NOAA and Coast Guard to map capped areas in the river to prevent anchoring in capped locations)

October General Meeting

Can Government Entities Work Together? Problem Solving in the 21st Century

Time: Tuesday, October 9th 7:00 PM **Place:** Multnomah County Building Board Room, 501 SE Hawthorne

The League of Women Voters will examine the expanding role of Government in meeting the needs of citizens:

- How and why has the Government role in people's lives grown, (perhaps cover this topic with community ideas)
- How do Government entities work together, (On slide #3 of your presentation - at first glance, audience may be confused. Before discussing slide, suggest starting with a general overview of what they need to know about the information about how ARARs relate to intergovernmental collaboration)
- What issues affect the success or failure of Governments working together, (May want to discuss real life examples: budget constraints, changes in leadership or different agency priorities. Keys to successful working relationships: 1. correct point of contacts 2. understanding roles and responsibilities 3. collectively understanding challenges)
- What is the future of Government and problem solving in the 21st Century.
